PURPOSE OF THE REQUEST

Question regarding Asian Le Mans regulations "10.2.1 Specific provisions for qualifying practice": Between Q1 and Q2 the respective cars must be pushed back into their garages. Are the cars during that period under parc fermé conditions? Because that would mean that the tyres would stay on the car. As only one set of tyres is allowed for both qualifying, the tyres for Q2 would be cold, as the pause between Q1 and Q2 is approximately 50 minutes. That would be a major security issue.

Would you allow or adapt the regulations to take the tyres off after Q1 to put them in the heater to have warm tyres for Q2?

Else we also understand that during Q1 and Q2 you are not allowed to refuel. But between Q1 and Q2 is it allowed to refuel or not. Can you please clarify.

Thank you.
