PURPOSE OF THE REQUEST

Dear Members of the committee, we would kindly ask you to clarify and answer the following questions :
A car drives through the pitlane and does NOT perform a pitstop. There is no SC procedure on where the field has to follow the SC through the pitlane. Does in this case the stintclock will be reset or does the stintclock continue?
E.G.:

-Car crosses pit entry line (Current Drivers Stint Clock = 20:00 mm:ss)

-Car drives through the pitlane without serving a penalty (DT) and not performing a pitstop

-Car crosses pit exit line (Stintclock resets to 00:00)

COMMENTS (TO BE COMPLETED BY THE COMMITTEE)

As per Article 13.1.1 of the Asian Le Mans Series Sporting Regulations, stints are defined from the loop at the exit of the pit lane to the loop at the entrance of the pit lane.

Anyway, as mentioned in Article 12.4.2, all pit stops that occur during the race must respect the pit stop reference time. It means that as soon a car is crossing the loop at pit entry (except in case of a penalty or if the Safety Car brings the cars through the pit lane), we expect the car to respect the pit stop reference time.
