**DATE:** 11/10/2023

**FROM:** The Asian Le Mans Series Committee

**SUBJECT:** Data Transfer

## APPLICABLE REGULATION

**Article 6.4.1**  2023 Asian Le Mans Series Sporting Regulations

## DECISION

Regarding the specificities of the Asian Le Mans Series the committee wishes to clarify the following article:

Each Competitor must make sure:

- That his system works correctly throughout the Competition: for that, he will have the same information as the organiser and at the same time.
- ~~That a computer specially dedicated to transferring the data to the Organiser is permanently connected to the network provided by ALMEM throughout the Competition. The connection to the network will be the Competitor's responsibility.~~
- To recover the data and transfer them immediately from his pit to the Organiser ~~via USB drive~~ ~~via the Internet network~~:
  - During practice, ~~at the start of each session during the first pit stop, then during the session at least once an hour~~ ~~and~~ at the end of each session;
  - During the race, ~~at the request of the technical delegate at the following~~ ~~on each~~ refuelling stop, except in the final hour.

For each mandatory download indicated above, the data must be transmitted to the organiser at the latest 10 minutes after the car entered the pit lane.

~~To aid in this process the technical delegate may request that an official supplier (Marelli or Oreca) retrieve the USB drive.~~
