

ASIAN LE MANS SERIES COMMITTEE

Request number
(to be completed by the Committee Secretariat)

ASIAN_2025_2026_R02_GET_SPEED_MISCELLANEOUS

APPLICANT INFORMATION

Type of applicant: Team Manufacturer Other:

Licence name: GET SPEED

Applicant name: Yannick KLOSE

Quality: Engineer

Email address: y.klose@getspeed.de>

Date: 28/11/2025

CATEGORY

LMP2 LMP3 GT3

PURPOSE OF THE REQUEST

- 1) Only the driver is allowed to touch the car, unless it is in its dedicated working area. Does that mean that mechanics are not allowed to push a car back into its working area, for example in the case of a massive overshoot or an issue with the car in the fast lane?
- 2) What if four skates are necessary? Are four mechanics allowed to put the skates into position, or only three with armbands (is putting a skate considered working on the car)? (See Art. 12.)
- 3) Is an external starter battery allowed (Art. 11.2 states that the engine must start without external assistance)?
- 4) Prior to a session, are we allowed to fuel the car inside the garage with a fuel bowser? Or must we use the dedicated fuel rig in the working area?
- 5) Is the red flag arm banded mechanic allowed to bring a drink bottle and an umbrella to the driver in case of race suspension?
- 6) Is it allowed to blow the radiator with air after a pit stop for cleaning purposes? (e.g. with an air lance)?

APPLICABLE REGULATION

 2025-2026 Asian Le Mans Series Sporting Regulations

ASIAN LE MANS SERIES COMMITTEE

DECISION (TO BE COMPLETED BY THE COMMITTEE)

- Accepted
- Accepted (conditional – see comments below)
- Rejected
- Suspended
- Other: see comments below

Date: 04/12/2025

COMMENTS (TO BE COMPLETED BY THE COMMITTEE)

- 1) Article 9.1.6 is complemented by Article 12.1.3 that authorised 4 Competitor's personnel to push the car in the pit lane. For the purpose of pushing the car, the Race Director will clarify in each briefing of the season the start and the end of the working limits of the pit lane.
- 2) Once the car is stopped in its working area, with engine off, then only authorised personnel is allowed in the working area. As per Article 12.2.2d) only 3 personnels, wearing the correct armbands, are allowed to intervene on the car to conduct any type of operations. Using skate is considered as a type of operation. Intervention on the car are only allowed once the car is on its working area, with engine off.
- 3) Connect an external battery is allowed when resuming a race after a Red Flag procedure, with approval of Race Control and supervision of a Scrutineer. Using an external battery is not allowed from the 5-minutes signal before the Start of the Race.
- 4) During a session, refuelling is allowed exclusively in the stopping area. Before the start of the session, it is allowed to refuel the car in the garage with a fuel bowser.
- 5) When the personnel with the red armband will access the grid under red flag, unless instructed otherwise by Race Control, it is not allowed to bring any material.
- 6) As per Article 7 of Appendix 7, using tools with external power source is forbidden in the pit lane.

PERIOD OF VALIDITY/APPLICATION OF THE DECISION

This decision comes into effect:

- with immediate application
- from:

And is applicable:

- until further notice
- for the above-mentioned Competition only
